MAINTENANCE AND CARE

Store in a dry place at room temperature, away from direct sunlight. Avoid exposure to extreme conditions. Always follow the manufacturer’s specific instructions for proper use and care. Dispose of this product responsibly according to local regulations when it reaches the end of its life. Following these recommendations helps maintain the quality and performance of your product over time. If the product is handled by a minor, ensure a responsible adult supervises to prevent accidents.

Care When Cleaning and Using the Product

Follow these recommendations to ensure your product does not deteriorate prematurely. If noticeable wear appears, such as extreme discoloration, yellowing on parts that should be transparent, cracks, or splits in the product, please replace it.

To ensure the durability and good condition of your stainless steel coffee cups, follow these guidelines:

- 1. **Regular Cleaning:**
 - Clean the knife block with a dry or slightly damp cloth. Avoid using abrasive cleaning products or strong solvents that could damage the material or finish.
 - The interior of the block has removable bristles that facilitate deep cleaning. Remove them periodically to eliminate dust or dirt residues.
- 2. **Avoid Excessive Water Exposure:**
 - Do not submerge the knife block in water or wash it under running water. Prolonged exposure to water can damage the materials and reduce the product’s durability.
- 3. **Exterior Maintenance:**
 - If the block has a stainless steel finish, use a soft cloth and a small amount of olive oil to keep it in optimal condition and prevent stains.
 - For blocks in white or black colors, clean with a dry or slightly damp cloth to maintain their appearance.
- 4. **Proper Storage:**
 - Place the knife block on a stable and level surface to prevent it from falling. Handle it carefully to avoid potential drops that could damage it or cause accidents.
- 5. **Avoid Overloading:**
 - Do not overload the block with more knives than recommended, as this may affect its stability.
- 6. **Periodic Inspection:**
 - Regularly check that the block is in good condition and that the bristles inside are not worn or damaged. Replace any parts in poor condition to ensure safety and functionality.

By following these guidelines, your knife block will remain in excellent condition, ensuring a long service life and safe use.
